## CONDITION OF THE MARKETS

PREO. P. HAUGHEY, Pres'L. H. LATHAM. Cash.

Wheat Opens Lower and Fluctuates Frequently on Unreliable Rumors.

Heavy Receipts of Corn Overstock the Market and Cause a Decline in Prices-Oats Active-Provisions Decline Slightly.

### MONEY, BONDS AND STOCKS.

The New York Market! Shows Increased Activity and Better Prices. NEW YORK, May 25 .- Money ou call was may at 122 per cent., the last loan being made at 14. closing at 1132

Prime mercantile paper, 41 064 per cent. Sterling exchange was active and steady at 84.862 for sixty days, and \$4.822 for demand. The total sales of stocks to-day were 339,239 shares, including the following: Delaware, Lackawanna & Western, 10,100; Erie, 3,150; Lake Shore, 9,900; Louisville & Nashville, 7,305; Missouri Pacific; 5,635; Northwestern, 16,316; Northern Pacific preferred, 5,318; Oregon Transcontinental, 6,400; Reading, 129,

420; Riebmond & West Point, 2,025; St. Paul, 72,705; Union Pacific, 16,519; Western Union, The stock market was more active to-day than on any day for a long time, and showed more

decided strength, the result of the day's trading

being a material advance throughout the entire

list. It was rumored early this morning that the Reading loan had been finally placed, and, coupled with free buying for London account, which was a comparative novelty, the opening was made at advances extending to 3 per cent. in the general list, while Reading was exceptional with gain of i per cent. Further small gains were recorded in the first few minutes, but the traders and "bears" soon made up their minds that the reported placing of the loan was a hoax and began to hammer the market again in their old style. The pressure was specially severe against Missouri Pacific and it declined 11. followed by New England and St. Paul with 11, and Jersey Central 1 per cent, the rest of the list losing fractional amounts. The official announcement of the final pegotiations with the syndicate, however, again turned the current upward, and before noon material advances had been made over the whele list, Reading at the top figure showing a gain of 2 per cent over its last night's price.
The market had been, up to this time, very active, but dullness then succeeded and some reaction took place, which, however, in but few cases, exceeded fractional amounts. The decline was checked before delivery hour, and prices again advanced, St. Paul and Reading being specially active and strong. The interest in the dealings centered almost entirely in these two stocks, and, though New England and Union Pacific were active, their movements were in unison with the general list, and attracted no special attention. The weakest spot in the list was again Fort Worth & Denver, which dropped two points on a very light business. There was no further feature to the trading, however, and in the last half hour the market became quiet once more, but closed firm at about the top figures. Northwestern was subjected to a sharp attack in the early morning, which had for its object the breaking of the price of the stock, but it was a complete failure, and later in the day it became dull. Outside of Ft. Worth & Denver, which shows a decline of 1; per cent.. everything on the active list is materially higher this evening, and Reading is up 2; Canada Southern, 1; New England, St. Paul preferred, and Michigan Central, 1; each; Chicago, Burlington & Quincy and St. Paul, common, each, 1; Lake Shore and Union Pacif-

ic, each, 1 per cent.
The railroad bond market did not respond to the increased animation in the share list, but was dull and quite irregular with small fluctua-tions. The sales amounted to \$984,000. East Tenpessee firsts rose 2 to 122, and Wabash arst certificates, 2 to 93.

Government bonds were quiet and steady. State bonds were entirely neglected. Closing

Butter dull and rather easier; Western, 172

234c. Cheese in fair demand.

CHICAGO, May 25.—The morning trading on Change was inactive in grains and very dull in provisions. Wheat took the lead in interest and strength. The opening prices were slightly below last night, and after just a shade advance, prices went off quite sharply for a half hour on realizing by many of yesterday's purchasers. The decline amounted to ac on June, and it on December. The moment the liberal offerings were over, prices rebounded and act this opportune time the rumor that a harvesting machine company had reliable advices that the winter-wheat yield in several leading States will not be over 40 to 50 per cent. of a crop. was started and used freely in crop, was started and used freely in the pit. This and other creations caused another je to le advance, and July sold lie over the lowest point of the morning, while December went to 90c. The reaction which followed when the rumor was chased down was just about equal to the advance caused by the statements. July wheat opened at 87%c, advanced to 88ic, sold down to 86ic, up to 88ic, back to 87ic, up to 88ic, and closed at 87ic; December closed at 89 c. In corn the local receipts were so large as to overshadow everything else, and caused a lower range of prices. The receipts to-day were 590 cars, and the estimate for Saturday was 710 cars. Over 65 per cent, of the receipts this morning graded No. 2 May, sold at 58 c to open, and 56½c to close. July ranged at 56½c up to 56½c, down to 55½c, up to 56c, and closed at 55½c. Trading was only moderately active. In oats the near futures were quite active, while the more deterred options were rather quiet. Trading in May was especially active, under a good demand from "shorts," and there was an advance of 1c over yesterday's outside figures.

May opened at 36% and closed at 38c; July sold at 33%, up to 34c, and closed at 33%c.

Provisions were weaker and declined slightly. The weakness in corn had a depressing feeling among holders of cured hog products, and although trading was small and offerings not excessive, the market closed easy at almost inside figures. July pork sold at \$14.42 014.50, and closed at \$14.45. July lard was purchased moderately by the English parties, and sales ranged at 8.62\frac{1}{2}\omega 8.67\frac{1}{2}\omega, and closed at 8.62\frac{1}{2}\omega. July short ribs sold at 7.72\frac{1}{2}\omega 7.77\frac{1}{2}\omega, and closed at 7.72 c. The leading futures ranged as follows:

Opening. Highest. Lowest. Closing. Wheat-June ... July..... 8838 5614 5519 5534 3634 3414 3358 2919 Corn-May .... July..... August... Oats-May.... June ..... July ..... August ... # DUN & CO.'S REVIEW.

Business Unsatisfactory, Both in Volume of Transactions and Prices.

NEW YORK, May 25.-R. G. Dun & Co., in their review of trade, say: "Gold has begun to go abroad in large amounts, \$5,800,000 having been shipped since May 8. In the present state of foreign trade, suspension of foreign investment in this country involves exports of gold to meet current balances, whether any part of the foreign capital previously invested here is called back or not, but there are indications of foreign realizing in some securities. The outgo of gold, in view of the large accumulation of idle money, causes no apprehension. At interior points money is scarce-ly anywhere close, and at nearly all points easier, but complaints of slow collections do not diminish. The volume of trade is almost universally unsatisfactory, but the unfavorable cause, and some improvement is reported at Cleveland and Memphis.

The tendency of prices has been downward, both for securities and for products. The average for products was temporarily lifted by the speculation in grain, but has fallen again to a point 5 per cent. below the highest for the year. Wheat has declined 3 cents with more favorable crop prospects; corn has fallen 2½ cents for the week, and cats 1 cent. Hogs and lard have advanced 15 cents per 100 pounds and coffee half a cent, but cotton and sugar do not gain, and oil is 34 cents lower than a week ago. The decline in wool since May 1 has averaged 30 cents per 100 pounds. Hides continue very dull, and leather generally favors buyers. No special activity is seen in the boot and shoe trade, orders falling below expectations. Iron is very irregular. Definite, though not great improvement appears in the dry goods and grocery trade. The stock market has been depressed about \$1 per share by gold exports, and by liquidations in some prominent stocks, but a vigorous rally began Friday morning. The business falures during the past seven days number, for the United States, 213; for Canada, 12; total, 225, compared with 189 last week and 175 for the corresponding week of last

ket very dull at yesterday's prices. CINCINNATI, May 25.—Cattle-Receipts, 432; shipments, 139. Market firm. Sheep-Requipts, 1,840; shipments, 1,250. Market easier. Lambs easier at \$4,50@7.75. Hogs-Market strong; common and light, \$4.25@ 5.65; packing and butchers', \$5.50@5.90; receipts,

INDIANAPOLIS MARKETS

The Business of the Week an Improvement Over the First Half of the Month. INDIANAPOLIS, May 25.

stimulants, doubtless. Dry goods men report prices firm and the business of the week as handsomely in excess of the corresponding period last year. Grocers are having a good trade for May. Coffees are firm at the advance of Thursday. Within the last ten days green coffee has gone up 2c, and roasted grades
11c. The belief prevails that the
highest figure is not yet of reached.
The New York Commercial Bulletin says: The New York Commercial Buffetin says:

"The quick, free movement has become curtailed this week, partly as the result, of recent free investments, but largely owing to the distrust arising from the apparent fluctuation in value as indicated by the deal is contracts; yet when buyers come to look for actual coffee they find the price not only quite as full as before, but in some instances rather better, with holdbut in some instances rather better, with holders quite indifferent about negotiating. In fact, over the early conditions of the market there seems to be no feeling of doubt whatever among owners of the supply, and they predict a better trade unless speculation becomes very rampant again. On contracts the position was very stiff and the course of prices gradually upward, with a gain of some 20 points made, closing well supported at the righest figure of the day, and no great amount of stock of the day, and no great amount of stock offering, especially on the hear deliveries."

Teas are firm; advices from abroad are generally supporting. Refined sugars are selling well and the market has a firm tendency. Foreign and Pacific dried fruits are meeting with good sale and prices are strong. Domestic dried fruits sell slow and prices are weak. The pro-vision market continues firm in tone and there has been an increased demand for lard and bams the last week, prices ruling about the same as in the early part of the week. The produce markets are active, green vegetables coming in more freely, prices weaker. Strawberries in only moderate supply, prices steady on choice fruit. The Indiana berries arriving are of an excellent quality and sell readily at \$10 to \$11 per stand. Choice butter is still scarce and wanted at our best quotation. Poultry is weak at prices quoted, young chickens coming in freely and prices off. They must be good size and fat to bring 15 cents per pound. Eggs firm. Receip to still light.

Inspections for past twenty-four hours amount to twenty-four cars, against seven cars for preceeding twenty-four hours. The attendance on 'Change was good but not much spirit was manifested in the business done.

Wheat is quoted at slightly better prices. On the call 94tc was bid, but in a small way 94t @ 95c could be obtained for No. 2 red. Corn is about in the same position as yesterday. White grades are in very good demand, other grades slow sales. Ear corn is offering more freely and prices are weakening. Oats market is unchanged. Feeds are quite weak; the demand being limited to a few cars for local use. Hay continues in fair demand although quotations are slightly lower than yesterday. Track bids

NO. 2743-POLITICAL CHARADE. In politics, Republican, In war, an Abolitionist Fought to the end just like a man; The great rebellion did resist.

Believing in America,
I for her institutions stand; Protect her people every way, Citizens of Columbia's land. American industry lives Not by cheap goods cld countries make, But by protection Congress gives; Protection is my party stake.

Would you destroy our woolen mills!
Our glass and iron-works break down!
For these in large part the country fills

With bread and mest our wage-paid men. Then down with that which trade destroys, Imported goods a duty pay; Protection now the State enjoy Change this and see a darker day. UNCLE THEO.

MARTINSVILLE, Ind. NO. 2744-ANAGRAM. "TRY, TRY A GIN," is a good rule,
That all should bear in mind.
If this you let nothing overrule
Work will easier be, you'll find.
I hope this is made plain

It's something all should train, If they would be advancers.
